

Introducing FreightOptics

The most innovative logistics technology
in the supply chain industry.

FreightOptics
Your Eye on Freight

Monitor your **Supply Chain**

As the supply chain industry undergoes a digital transformation, FreightOptics leads the competition in technological capabilities, overall visibility, and ease of use. Our cloud-based platform was conceptualized by a team of technology and supply chain industry leaders in search of a comprehensive, profit-driven software solution that enhances supply chain visibility.

It's a Digital **Revolution**

FreightOptics provides access to all modes via one single login. Taking time to download Excel spreadsheets becomes a thing of the past. You no longer have to log in to individual carrier accounts to run reports. Our technology also eliminates the need to spend countless hours tracking and reviewing invoices, overall saving an average of 1½ to 2 hours per day, per logistics employee.

Visibility, Automation, & Real Solutions

FreightOptics is a technology that can positively and profitably transform your business. Our cloud-based system utilizes the most advanced data analytics currently available in the industry to deliver services and solutions such as:

- Parcel and Freight Audit & Payment**
- Optimization (Bid Management)**
- Business Intelligence**
- Parcel and Freight TMS (Transportation Management System)**

FreightOptics analyzes each critical element of your supply chain to maximize all savings opportunities and streamlines your shipping data into one consolidated dashboard that can be customized to fit your individual needs.

Key Features

- Cloud-based, Mobile-friendly Technology
- One Login for 24-7 Access to All Data
- Heat Maps, Pie Charts, and Graphs
- Customizable Dashboard
- Detailed Reporting
- Visibility of Warehouse Metrics

It's All About Results

- **\$27,000** saved for a leading CPG manufacturer in the first three months of implementation
- **28%** savings for an online, mail-order pharmacy through a technology-backed formal bid project
- **40%** reduction in fuel surcharge expenses and other savings for the largest privately-owned art gallery in the world
- **\$23,000** in refunds for a leading freight forwarder by accurately identifying a rate error, along with setting up **\$46,000** in savings per year using cost avoidance methods
- Countless hours saved for a leading designer, distributor, and licensor of high-quality men's and women's apparel, accessories by providing access to all parcel carrier rates in an easy-to-use interface for comparing rates and allowing them to choose the best option for each shipment

FreightOptics can also be leveraged across the company, allowing the Customer Service department to access this information for dealing with customer-related issues.
